

SITECONTROL

You've ASKED For It, HERE It Is!

Introducing WESCO Net Web Services SiteControl. A state-of-the-art content management solution for web sites. SiteControl is easy enough to use and yet, extremely flexible and powerful.

You can get started immediately with the basic features and included themes, then grow into the advanced features and realize SiteControl's full potential.

SiteControl is based on the same software used to power high profile companies such as New York Times, Dow Jones, Reuters, Harvard, Rolling Stone and many more.¹

WEB BASED SITE ADMINISTRATION

SiteControl puts you in control of your web site. Now you can log in, 24 hours a day, 7 days a week and update your content from *anywhere* with an Internet connection.

- Write new posts, articles or pages
- Upload images
- Upload PDFs and Word Documents
- Use the built in Text Editor
- or Edit the HTML directly

PICK YOUR THEME

The look of your WESCO Net Web Services SiteControl web site is up to you. Included with your SiteControl subscription are several great looking themes. Pick one of these and you have an instant website.

Plus, you can changes themes whenever you want!

If you are comfortable with HTML and CSS, you can create your own theme. Show off your PhotoShop and coding skills by adding your custom touches to one of the included themes or start from scratch if you're up for the challenge.

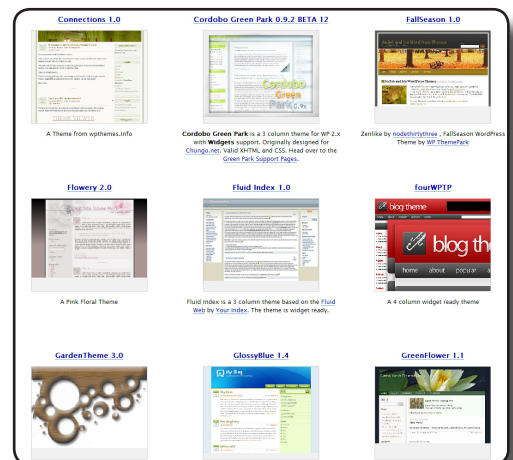

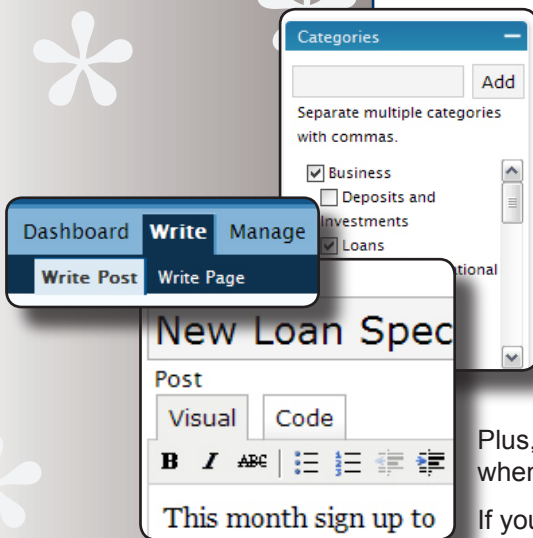

Or, let WESCO Net Web Services create a custom theme for you.

PRE-WRITTEN CONTENT

SiteControl is powerful enough to use WESCO Net Web Services Code Snippets. Easily link to informative sites such as CU*Secure and Financial Education content.

Also, with SiteControl, its easy to use CU*Answers Library articles. Add this pre-written content directly to your web site with one simple line in your post or article.

Watch the WESCO Net Web Services web site at <http://ws.wesconet.com> for new Snippets and Library articles as they become available.

SATELLITE RATEBOARD IS BUILT IN

WESCO Net Web Services SiteControl has the Satellite Rateboard built right in. All you have to do is tell SiteControl where you want it. See ws.wesconet.com for how to use the Satellite Rateboard in SiteControl.

ADVANCED FEATURES, SUCH AS...

Your visitors want to interact with you and your website. With Web 2.0, your site needs to do more, and with SiteControl it can. SiteControl has many advanced features included, and we're adding more all the time

VISITOR COMMENTS

Comments can be controlled on a post by post basis. Find out what your members and visitors are thinking by letting them post comments about your stories.

POLLS

Informal polls and surveys can now be done right on your website.

SITE SEARCH

Searching is expected these days. WESCO Net Web Services Site Search is *included* with SiteControl, so your members and visitors can easily find information on your site.

MORE...

With WESCO Net Web Services SiteControl we are always adding features. Let us know if there is something specific you are interested and we'll see what we can do.

One Response To "An Online Collaboration To Search For Answers"

1. Randy Kames Says:
[May 31st, 2007 at 4:52 pm](#)
 Check out www.cisco.com and search "The Human Network" and poke around a bit. I know you have seen the ads on television and the network of members who imagine if every member thought of a credit union as the network of members who important an owner of my own chance a financial success.
