

# WIN A CHANCE TO LEARN FROM PASSAGEWAYS

For the past five years Passageways has designed PowWOW conferences to demonstrate software enhancements and how your portal can be used to streamline collaboration and communication.

## This is your chance to learn from the creators of the P4 Portal, FOR FREE!

The collaboration bandwagon is picking up speed and this is your chance to jump ahead of the game. Spend three days learning from the best examples and ideas other Credit Unions have, and take home a load of new information and ideas to apply toward your organization's Talent Source Portal.

### What You Need

- \* Write 500 words minimum on how the portal is or will change your Credit Union
- \* You must have approval from your CEO to attend the event
- \* You must be available to travel to the conference

### What You Win

- \* Two nights stay at Embassy Suites
- \* Registration and parking for the event - a value of over \$750
- \* Direct portal experience from portal experts
- \* Network with other portal users and build on their knowledge

### Details

- \* Passageways PowWOW will be hosted in Indianapolis, Indiana on May 11th-13th
- \* Submit your entry to the portal team at [portal@wesconet.com](mailto:portal@wesconet.com)
- \* Entries must be received by March 31st 2010, winner will be announced April 15th
- \* Travel arrangements and expenses are your responsibility
- \* All submissions become the property of CU\*Answers

Passageways has developed a rich agenda of more than 20 business tracks, technical tracks and training sessions featuring product experts and industry thought leaders on collaboration and enterprise portals. This conference is a 'can't miss' event; with advanced learning from case studies, hands-on learning from featured peers, and gives you the inside track on new technologies.
